DATACARD® ID WORKS® BASIC IDENTIFICATION SOFTWARE

Designed for traditional ID programs, ID Works Basic identification software provides everything you need to ensure easy, efficient program management.

Essential tools for card design, production and management

Datacard® ID Works® Basic identification software includes the core tools that ID programs need to manage card design and production efficiently, as well as excellent flexibility for creating cards and handling images. It also allows you to easily upgrade to Datacard® ID Works® Standard or Enterprise software as your needs change.

Proven capabilities, effective performance

• **Powerful ID program management.** This software package enables you to create card and report designs, as well as manage image capture and printing. It introduces basic security features, such as a ghost option for the photo field. You can import and export data from Microsoft® Access databases, encode magnetic stripes and print bar codes. You can also create your own layout, field labels, color and graphics in production forms.

• **Flexible integration.** The application leverages all the features of Datacard® SD Series or SP Plus Series card printers and integrates seamlessly with many other printer brands. It supports Datacard® Tru™ Photo solutions, as well as TWAIN and Video for Windows image capture devices.

• **Intuitive interface.** The user-friendly interface features point-and-click navigation to simplify card design and production. Customizable sample templates and online documentation quickly turn new users into experts.

Standard Features

Flexible card, report and production form design
  User-defined card size (CR50, CR80, Custom)
  Auto-create production form
  Shape drawing support
  Font sizing and colors
  Multiple field selection, alignment and formatting
  Zoom in/out card design window
  Zoom in/out report design window
Field types
  Variable text (with masking)
  Static text (with word wrap option)
  Photo (with border, ghost or transparent background option)
  Date (with time option)
  Bar code (21 types)
  Magnetic stripe
  Static and variable graphic (with ghost and transparent color options)
  Non-printable area
  List
  Composite
  Print count
  Auto sequence
Image management
  In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
  Image storage as BLOBs or files
  Multiple images per record
  View photos in table view
Database management
  Auto-create Microsoft® Access 2000 database
  Quick, advanced and stored searches

Database support
  Microsoft Access 2000, 2007 and 2010
Help features
  Online user's guide
  Online help
  Help desk support
Security features
  USB hardware key
  Application- or activity-level user security
  Login timeout feature
  Restrict project access by user
  Secure user audit trail
Compatible with the extensive line of Datacard® card printers
Image capture options
  File input
  Tru Photo solutions
  TWAIN capture devices
  Video for Windows capture devices

System Requirements

Operating system
  Microsoft® Windows® 2000, XP, Vista® , 7 (32-bit or 64 bit) or 8 (32-bit or 64-bit)
  Web browser
  Internet Explorer v6.0 or later
Memory
  512 MB RAM
  100 MB hard disk space for application (not including database)
Color
  16-bit color (65,536 colors)

(Cameras may require higher color)

Resolution
  800 x 600 screen resolution (1024 x 768 recommended)
Peripherals
  CD-ROM drive
  Available USB port
